Divya Gyan College at a glance

Divya Gyan is a principal Institute for Information Technology and management. The college currently offers Bachelor of Computer Application and Bachelor of Business Studies. We are outstanding business educators and the college is the perfect destination for the students who are interested in career in communication and technology oriented business sector.

The college is established and structured by a team of dedicated, result-oriented and eminent academicians and professionals with the motto of "Unleashing Limitless Possibilities" through strategic innovations in education. It is located at the heart of Kathmandu valley at Kamaladi Mode, Kathmandu and is committed to provide students with clear practical ideas.

It aims to provide the inquisitive learners with all the necessary facilities, to make them stand on their own, in the days to come.

Why BCA?

Divya Gyan offers the BCA degree in affiliation with Tribhuvan University, the oldest university of Nepal. The course program is developed by Faculty of Humanities and Social Sciences.

BCA is already a very popular program and the main objective of the BCA program is to produce IT professionals who can be a perfect fit for various IT positions like software engineers, database developers, Network Engineers, System Administrators, Network Security Experts, Quality Assurance Analysts, System Analyst, IT managers and so on. The demand of IT professionals is increasing day by day world wide. There is a lot of opportunity for IT graduates both inside Nepal and abroad.

BCA has a very good career scope and the whole concentration of the degree is towards the computer courses. Students does not have to worry about other subjects and can just focus on their core concentration area.

Why BCA at Divya Gyan?

Divya Gyan College has been backed up by IT companies who have already gained proficiency in professional teaching learning pedagogy and along with it the college is supported by numerous top IT companies where the students of Divya Gyan will get an opportunity to do internship or job.

The college provides the students the opportunities to advance their skills on business research and data analysis. We also offer management training by the professionals who have a wide array of experience in the same field. Divya Gyan college also prepares students equally in the field of IT so that they can apply their management skills through tools and techniques provided by IT.

Intellectual, social, psychological, emotional and spiritual growth of students is the prime goal of the institution. We are committed to produce students who would become capable and responsible citizens of the world.

At Divya Gyan we train students in different areas as per the interest of the student and help them grow their professional skills by providing them the environment where they can work under the supervision of experts in respective field. Divya Gyan College has already maintained a good relationship with companies where its graduates will easily get an opportunity to implement the knowledge acquired through out the degree.

The college aims to provide training on professional courses in each of the semester so that students will have an enough background to make a career choice.

Eligibility requirement

Students must pass PCL or + 2 with minimum 2 CGPA (not less than D+ in a single subject)

Success methodology at Divya Gyan

Step 1:

We have a very good faculty with years of experience. They will share their industry experiences which will help students to visualize how the knowledge acquired at college can be later implemented in the industry. Additionally, the classes are equipped with multimedia projectors which will help the trainers to better conceptualize the subjects via audio visual and multimedia presentations.

Step 2:

Our courses are not limited to the 4 years curriculum. We have planned to engage students in different non-credit courses during the 4 years time. Students will be involved in professional courses each semester to give them the knowledge of different areas. Our workshops will help the students to get essential practical and technical knowledge from various experts of different fields.

Step 3:

We have established relationship with different industries where we can place our students for internship. Divya Gyan College is promoted by a group of professionals who are themselves engaged in various business organizations like Software Company, Training Institute, Public Relation Management, Media and Human Resource Organisation.

Step 4:

At final stage we will prepare students to get jobs in different industries based on their interest and expertise and cope up with various challenges that they face during their career.
